Student Service Learning 7th Grade Project Begins!

Seventh grade students will create a picture book of a character who persevered and read to kindergarten classes at our partner community school. Students will also share what is learned in the 7th grade ELA Unit of Perseverance through a Student Service-Learning project.

Student Service Learning (SSL) is a teaching method that combines meaningful service to the community within curriculum-based learning. Through SSL students apply specific academic skills to “real world” problems to gain a greater understanding of community needs. Additionally, students reflect upon how their service directly impacts others. Student Service Learning is not group organized volunteerism, independent volunteerism, or internships. It is a curriculum presented within the student’s school day. All service learning hours are completed as coursework offered through projects developed for each grade level. Each year, 25 service learning hours will be offered to students and awarded by participation in meeting course objectives and completion of the grade level project. In this way, students will obtain their required 75 hours of service by the end of their 8th grade year. Please look for SSL updates in the Patapsco Knightly News to be informed about special achievements, deadlines and activities. If you have questions about this program, contact our school SSL Coordinator, Sherri Ross, email: sherri_ross@hcpss.org.

Previously Shared Information

MCAP Testing

Patapsco students will continue to participate in the Maryland Comprehensive Assessment Program (MCAP) over the next few weeks. Please read the following carefully to help your student be prepared.

What is MCAP?

The Maryland Comprehensive Assessment Program (MCAP) provides information to educators, parents and the public on student progress towards proficiency on the Maryland College and Career Ready Standards. Through a strong assessment system, stakeholders gain an understanding of how schools are performing and where assistance can be directed to support student growth and achievement.

Students will be testing on the following dates.

- **Math MCAP: May 20th and 21st**

Students should bring a charged HCPSS Chromebook for testing. We encourage students to get a good night sleep and eat breakfast at home or at school. Students are not permitted to have or use personal electronic devices during testing.

Please contact Heather Dinicola (heather_dinicola@hcpss.org) with any questions.

Bullying Communication

As we gear up to finish the school year strong, it's important to address student interactions that can affect both individual students and/or our school community. Peer conflict is something that most students will experience at some point in their school career. . However, it is essential to understand the difference between conflict and bullying, should bullying occur. By understanding the differences, we can better navigate challenging situations and foster a positive school environment where everyone can thrive. We look forward to continuing to work together to end the school year on a strong and positive note. Thank you for your continued support and partnership!

Conflict	Bullying
<p>Mutual Disagreement: Conflict typically involves a disagreement or difference of opinion between two or more individuals.</p> <p>Equal Power: Those involved in the conflict usually have relatively equal power or standing.</p> <p>Occurs Occasionally: Conflicts arise occasionally and may be resolved through communication, negotiation, or compromise.</p> <p>No Intention to Harm: While emotions may be involved, there is no deliberate intent to harm or exert control over the other party.</p>	<p>Power Imbalance: Bullying involves an imbalance of power, where one individual seeks to assert dominance or control over another.</p> <p>Repeated Behavior: Bullying often consists of repeated actions or behaviors aimed at causing harm, either physically or psychologically.</p> <p>Intentional Harm: The bully intentionally seeks to harm, intimidate, or humiliate the victim, often deriving satisfaction from the victim's distress.</p> <p>One-sided Aggression: Unlike conflict, bullying typically involves one-sided aggression, where the victim feels targeted and unable to defend themselves adequately.</p>

More information can be found on the [HCPSS Stop Bullying website](#). If you have any questions regarding this policy or its implementation, please contact a school administrator. Heart & Sole

Heart and Sole (Girls on the Run program for 6th - 8th graders) helps girls (this includes any female-identifying and non-binary young people) unleash their potential by focusing on five key things: body, brain, heart, spirit, and connection. Participants work on setting goals geared toward physical, emotional, and relational health, and actualize those goals through exercise, community building, and connection.

The spring season runs from Tuesday, March 19th (first practice) to Tuesday, June 4th (end-of-year celebration). Each season ends with a noncompetitive 5K (Sunday, June 2nd) where participants celebrate who they are, how far they have come, and where they want to go. The program will run after school on Tuesdays from 3:15 pm - 5:15 pm and will meet in Ms. Kelly's room (A4).

Participants must register through Girls on the Run of Central Maryland and can do so using the following link - [Heart & Sole Registration](#)

Forgotten Items

We are seeing an increased amount of lunches being brought in, please whenever possible send your child's lunch with them to help save time for you and the office staff.

We know homework, projects and instruments are important to our students, so we ask for your help in assisting students prepare for the day the night before, or the morning of, to ensure they have everything they need for the school day.
